

AI and Academic Work Policy

As we navigate the use of AI, please review the following as it pertains to academic work during your QFM residency - including portfolio, QI and scholarly project work:

[Academic Integrity | Queen's University](#)

[Queen's guidelines on Responsible Use of Generative AI](#)

[PGME AI Position Statement](#)

In simple terms, please ensure:

- You write reflections in your own words.
- If you use AI to assist in your literature search, you must disclose this and review the actual articles and do your own reading and synthesis.
- Report writing must be in your own words.
